Introducing ...

A New Concept in Topical Analgesics

HTA provides Powerful Pain Relief that penetrates fast to relieve arthritis pain, joint stiffness, and muscle aches using all-natural ingredients.

HTA Pain Relief Spray is not a counter-irritant, but the first in a family of heat-activated analgesic products that has been clinically tested and proven to deliver effective and deeply penetrating pain relief.

HTA Heat Activated Pain Relief Spray

- Clinically proven aloe-based pain relief formula
- Application of heat enhances absorption of active ingredients
- Easy "no mess" spray application
- Odorless & stainless
- Contains no menthol, camphor, salicylate or alcohol

A Treatment with HTA and a Moist Heat Wrap:

- Increases circulation to flush away harmful chemicals that cause pain
- Promotes healing and restores muscles to their natural and healthy state
- Reduces painful inflammation
- Soothes and revitalizes skin
